The case deals with the question of acquiring additional lands for the Government Livestock Farm at Koila in Puttur taluk, South Kanara district. The present extent of the Farm is 569.85 acres, made up of 555.14 acres of Govt. lands transferred to the Farm and 14.71 acres acquired from private parties. The D.A.H. has proposed that in order to straighten the boundaries and eliminate private pockets of lands within the Farm, an additional extent of 199.71 acres of poramboke lands should be transferred to the Farm and 11.60 acres of private lands acquired Out of 199.71 acres of poramboke lands, a block of 188 acres of assessed waste has been reserved by the Collector for the use of the Farm. The cost of acquisition of the private lands is estimated by the Director at Rs.4,000. The Director considers that the acquisition of the lands will, besides enabling the Farm lands to be fenced off from trespassers, help to raise additional fodder crops required for the cattle.

2. The Collector of South Kanara was consulted in the matter. After inspecting the Farm and the lands, he has reported that additional lands are necessary in view of the anticipated increase in the livestock population of the Farm and has supported the Director s proposal for increasing the area of the Farm. A sketch showing the location of the Farm and the lands in question is put up at (U). It is stated that even after the transfer of the poramboke lands sufficient pasturage will be available for the village cattle. The Collector has therefore suggested that an extent of 200.10 acres of Government lands (including the block of 188 acres already reserved) may be transferred to the Farm and an extent of 11.82 acres of private lands comprised in pockets within the Farm may be acquired. The approximate cost of the acquisition

will be about Rs. 8,000/-.

3. The Director's proposals as modified by the recommendation of the Collector may be accepted in this Department. Orders regarding transfer of Government lands will have to issue from the Revenue Department

4. Revenue and Finance Departments may see for remarks before circulation.
